

English

In year 1, we will:

- Write grammatically accurate simple sentences.
- Use the correct letter formation in our writing.
- Apply our phonics knowledge to our writing.

In year 2, we will:

- Further develop our knowledge of grammar, and apply it accurately in our writing.
- Write accurate sentences with correct letter formation, grammar and punctuation.

Art

As artists, we will develop our sketching techniques. We will replicate the artwork of Pablo Picasso.

Other Subjects

- In PE, our units are fitness, team-building and dance.
- In RE, our unit is belonging.
- In computing, our unit is technology around us
- In Music, we will learn how music can create a mood.
- In PSHE, our units are Being Me in my World and Celebrating Difference.

Design Technology

As design technologists, we will construct 3D shapes from 2D nets.

We will learn ways to make structures strong and stable.

Years 1 and 2

Autumn Term 2024

Maths

In year 1, we will:

- Learn place value within 10.
- Count forwards and backwards to 100.
- Identify and represent numbers.
- Use language of more than, less than and equal to.

In year 2, we will:

- Recognise place value within two digit numbers.
- Read and write numbers to 100.
- Know our number bonds to 100.
- Add and subtract two digit and one digit numbers.

Geography

As geographers, we will locate the UK and Hull on a map. We will name the four countries in the UK and their capital cities.

History

As historians, we will learn that the toys our grandparents played with are not the same as the ones we play with today.

Science

As scientists, we will learn that some animals can be kept as pets, and others live in the wild.

We will learn that mammals have fur, and also learn the characteristics of birds, fish, amphibians and reptiles.

We will also learn the different types of weather and the four seasons.
